

Lab Facilities:

Huntsville Hospital maintains a laboratory in our office with highly trained staff. Lab hours are 8:30-11:30 and 1-4 p.m.

If our physicians have ordered labs for you, the orders are electronically submitted to Huntsville Hospital.

If you wish to get your lab work at a laboratory that is not a Huntsville Hospital Laboratory, we will give you a printed copy of your lab orders.

It is important that you let our staff know when you get labs at another physicians office or laboratory that is not a Huntsville Hospital laboratory. Our physicians want to have all laboratory studies performed at the time of your visit.
